

Wheel Fun Rentals Announces The New E-Bikeboard
A silent, zero emission, ecologically friendly form of transportation.

bikeboard™

E-Bikeboard S500

A silent, zero emission, ecologically friendly form of transportation.

The E-Bikeboard is a special 3-wheeled electric scooter. It is motorized by a 500W electric hub engine which is powered by Lithium Polymer rechargeable batteries. At a maximum speed of 15 miles/hour it has a range of 30 miles per 2 battery charges. Maximum speed can be reduced (internally adjusted) to max out at 7 mph.

E-Bikeboard Users

Individuals: to ride to the beach, university/college, coffee shop, gym, stores, etc. Riding to all the above mentioned places from cruise boats, RV's, etc.

Rental: shops/companies near beaches, cities or mountain resorts, golf courses, valet parking, amusement parks, etc.

Industry: companies with employees needing to cover longer distances between plants such as security staff, etc.

Government: Police that need to ride in pedestrian areas and the military that can use E-Bikeboard on the Base, training camps, etc.

In all situations, E-Bikeboard can provide quiet, clean mobility.

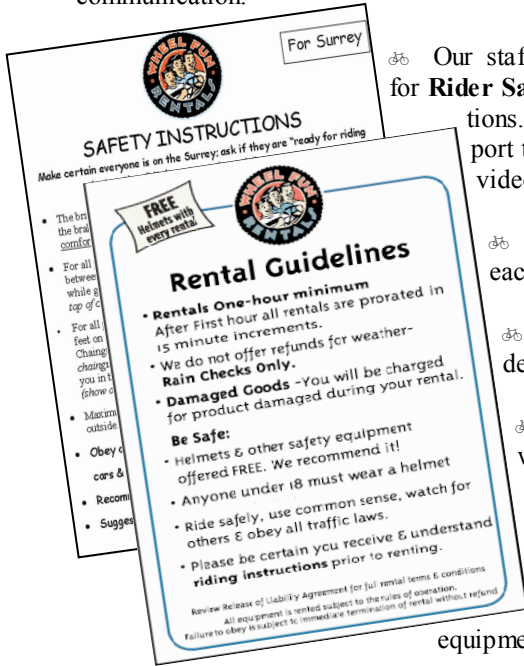

All riders must be at least 16 years of age and must be licensed drivers.

assuring public safety

the proper controls

Though we may never reach perfection, we put forth considerable effort to assure customer safety and to minimize any potential issues while integrating into the areas where we rent. A safe, sound rental operation starts with customer communication.

Our staff goes through hands on training for **Rider Safety and User Information** instructions. To assure nothing is missed we support this training with a reference manual and video as well as laminated instruction cards.

Clear and simple signage is posted for each customer at the sign-out counter.

Each group is given Rider Safety and User Information instructions before departure.

Helmets and locks are made available to all riders at no additional charge with helmets required for all E-Bikeboard riders.

Wheel Fun provides a Acknowledgement of Risk release/waiver form for all guests to sign.

Daily routine maintenance and safety checks are conducted on all equipment with product maintained to highest standards.

Naturally we carry comprehensive public liability insurance with an American-based “A” rated insurance carrier. The insurance has limits of liability not less than \$1,000,000 combined bodily injury and property damage.
